AGENCY DETAIL

User's Guide

The Board of Estimates recommendations are published in the Executive Summary, Agency Detail and the Capital Plan. These documents constitute the City's comprehensive budgetary plan. This plan is presented to the City Council for deliberation and public hearings prior to the Council adopting and forwarding it to the Mayor for signature. Once the City Council has approved the budget plan and the Mayor has signed the Ordinance of Estimates, a document entitled Summary of Adopted Budget is completed.

To aid the reader in understanding the budgetary plan, the following sections are included in this document:

Table of Contents - a sequential listing by page number for all City agencies and budget exhibits.

Introduction - a User's Guide to explain this document's organization and a Budget-Making Process section that outlines the steps from agency requests through Ordinance of Estimates.

Agency Overviews, Recommendations and Detail – The information is organized in alphabetical order by agency. A divider identifies each agency and the exhibits are organized in the following manner:

IMPORTANT NOTES ABOUT THE FISCAL 2012 AGENCY DETAIL:

The Fiscal 2012 Agency Detail publication is new and improved. It has been reorganized to aid the reader and includes new content. As in past years, the publication is organized by agency. This year, within each agency chapter is a series of service sections. These sections consolidate service information that was previously in separate places. They also include two new items for selected services: a table breaking down the General Fund and Motor Vehicle Fund changes from Fiscal 2011 to Fiscal 2012, and the key performance measures and targets developed through the Outcome Budgeting process.

Because of the transition from programs to services that was made in Fiscal 2011, the Agency Detail publication does not include Fiscal 2010 actual expenditures at the service and activity level. These data could not be accurately crosswalked from the old program and activity structure to the new service and activity structure. Fiscal 2010 actual expenditure data are provided at the agency level by fund and object to meet the City Charter requirements. Fiscal 2010 actual expenditure data for the programs and activities used in that fiscal year are available from the Finance Department upon request.

Comparable data for Fiscal 2011 Budgeted, Fiscal 2012 Current Level of Service, and Fiscal 2012 Recommendation are provided.

Overview

The over-arching mission of the Office of Civil Rights (OCR) is to carry out activities to eliminate discrimination and protect individuals' civil rights. To that end, the Office of Civil Rights houses three distinct commissions: the Community Relations Commission, the Commission on Disabilities, and the Wage Commission.

The Community Relations Commission was established through Ordinance as the City's official anti-discrimination agency with the authority and responsibility for the elimination of discrimination in all areas of community life. The Board of Commissioners, appointed by the Mayor and approved by the City Council, advises and oversees activities to achieve this purpose, carried out by the Executive Director and staff of the agency.

Housed within the agency's budget is the Civilian Review Board for Baltimore City. House Bill 1138, enacted in the 1999 session of the Maryland General Assembly, repealed the Complaint Evaluation Board (CEB) and established the Civilian Review Board to investigate and evaluate certain categories of complaints from the public against the Baltimore Police Department and to review the department's policies and make recommendations.

Senate Bill 616, enacted in the 2000 session of the Maryland General Assembly, expanded the authority of the Baltimore City Civilian Review Board. This revision included the following law enforcement units in Baltimore City: the Baltimore City School Police and the Baltimore City Sheriff's Department. The bill also repealed the previous termination date of September 30, 2002 as it applied to the board. The legislation provides that staff of the Community Relations Commission may be assigned to assist the Board by the Mayor of the City of Baltimore.

The Community Relations Commission receives, investigates, and resolves complaints alleging illegal discrimination; works to eliminate discrimination of any form because of race, color, religion, national origin, ancestry, sex, marital status, physical or mental disability, sexual orientation, age, and gender identity and expression; educates the public regarding anti-discrimination laws and; promotes human and civil rights; and provides rumor control services for the metropolitan area. The Community Relations Commission also works with the police to improve community relations.

The Commission on Disabilities is responsible for ensuring that the City is in compliance with the Americans with Disabilities Act in providing accessibility and accommodations to people with disabilities in City facilities, programs and services. The Commission also provides information and educational programs for City government and for businesses regarding reasonable accommodations for employment and other issues concerning people with disabilities.

The Wage Commission was established by City Ordinance to enforce provisions of the City wage law and to establish prevailing and living wages for employees of contractors doing business with the City. The Wage Commission conducts on-site investigations, issues orders for payment of back wages, and assesses penalties for violations in the areas on non-payment of legal wages, late submission of certified payrolls and incorrect ratios of apprentices to journeymen.

656. Wage Investigation and Enforcement

Service Description

This service adds economic value to the City's low/moderate income work force through the enforcement of the City's Minimum, Living and Prevailing Wage Laws. Living Wage enforces the City's Living Wage pay rate of \$10.59 for all City service contracts. Minimum Wage sets the highest standard of coverage for employees by providing wages and overtime protection for all City businesses with two or more employees. Prevailing Wage establishes and enforces 140 labor and mechanic pay rates that are incorporated into the City's capital construction and requirements contracts. A one stop location is provided for obtaining information and filing wage complaints, resulting in recovering back pay and lost wages for employees.

Budget Summary

The General Fund recommendation for Fiscal 2012 is \$54,216 (31.9%) above the Fiscal 2011 level of appropriation. In Fiscal 2012, this service will implement a Labor Compliance Reporting System, an electronic system for contractors and sub-contractors to submit their payrolls for review and verification. Overview

The Department of Planning provides the highest level services and leadership in urban and strategic planning, historical, and architectural preservation, zoning, design, development, and capital budgeting to promote the sustained economic, social, and community development of the City of Baltimore.

The services provided by the Department of Planning are mandated by Articles VI and VII of the Baltimore City Charter and the Zoning Code. The Planning Commission is the policymaking authority for the Department and consists of the Mayor or designee, the Director of Public Works, a member of the City Council, and six City residents appointed by the Mayor and confirmed by the City Council.

The Charter authorizes the Planning Commission to develop and update plans for the physical development of the City, review proposals for the subdivision of land, submit an annual capital budget and six-year Capital Improvement Program and make recommendations on proposed amendments to the City's Zoning Ordinance. The Comprehensive Master Plan guides future development and the capital budget.

The Planning Commission relies on department staff to develop plans, conduct permit reviews, conduct studies and make policy and zoning recommendations related to land use, economic development, housing, transportation, environmental and other planning issues. The department monitors the capital budget, serves as community liaisons and works closely with the Mayor's Office and other agencies.

The Department of Planning also provides historical and architectural preservation services as mandated by Article VI of the City Code. The Commission on Historical and Architectural Preservation is the policymaking authority for these services and consists of eleven City residents appointed by the Mayor and confirmed by the City Council.

The Commission on Historical and Architectural Preservation designates historic districts and landmarks, reviews all proposed alterations to properties in historic districts and landmarks, and generally undertakes efforts to support and provide incentives for historic preservation. The Commission relies on department staff to make recommendations, conduct surveys, implement incentive programs and make policy and other recommendations related to historical and architectural preservation.

The Office of Sustainability, within the Department of Planning, was created by ordinance in 2007 to develop and implement the City of Baltimore Sustainability Plan. The Office of Sustainability also manages environmental planning and regulatory functions, as well as staffing the Sustainability Commission.

762. Historic Preservation

Service Description

This service strengthens Baltimore’s economic and cultural infrastructure by preserving its architectural assets. The Commission for Historical & Architectural Preservation (CHAP) identifies and recommends the historic designations of City landmarks and historic districts, fostering tangible gains in the local economy and increases in property sales prices and property tax base assessment. CHAP operates the Edger Allan Poe House and Museum, a national landmark and international attraction. There are currently 32 Baltimore City historic districts and 153 landmarks, including 11,000 properties.

Budget Summary

The General Fund recommendation for Fiscal 2012 is \$11,970 (9.7%) below the Fiscal 2011 level of appropriation. Planning will hire a consultant to prepare a plan for the Museum which will allow it to remain open in the future. In Fiscal 2012, previously raised funds will sustain the Museum. For Fiscal 2012, the percentage of eligible properties within Baltimore with local or national designation will remain at 25%. Due to the abolishment of a position in Fiscal 2011, this service is unable to offer new designations.

765. Sustainability

Service Description

This service funds the Baltimore Office of Sustainability, which integrates sustainability principles into City operations and policy decisions, and acts as a catalyst to create sustainable behavior in the larger Baltimore community by building community capacity to make change. The essence of sustainability is to increase efficiency without sacrificing future finances, community health or our environment.

Budget Summary

The General Fund recommendation for Fiscal 2012 is \$93,148 (86.6%) above the Fiscal 2011 level of appropriation. The recommended funding level allows the creation of a new position to implement the City’s new Food Policy Initiative by activating ten acres of vacant land for the cultivation of food in 2012. This staff position will implement 70% of the 2009 Food Policy Task Force’s recommendations and leverage \$300,000 through Federal grants and philanthropic giving. This service will expand Youth Environmental Stewardship Programs by increasing the number of students participating in sustainability education programs and activities from 1,000 to 2,000 in Fiscal 2012. The service will also expand the Baltimore Neighborhood Energy Challenge to create 12 new green jobs, train 239 volunteers to be neighborhood energy captains, distribute 2,000 additional energy savings kits, and enroll 861 households in home energy use monitoring program through Baltimore Gas & Electric.

Overview

The mission of the Police Department is to protect and preserve life and property; to understand and serve the needs of the City's neighborhoods; and to improve the quality of life by maintaining order, recognizing and resolving community problems, and apprehending criminals.

The Police Department is an agency and instrumentality of the State established under Article 4 - Section 16 of the Code of Public Local Laws of Maryland. The agency's purpose is to safeguard the lives and properties of persons within the areas under the control of the City of Baltimore, and to assist in securing for all persons, protection under the law. The authority to appoint the Police Commissioner was transferred from the Governor of the State of Maryland to the Mayor of Baltimore, effective July 1, 1978. The Police Commissioner has the full authority and responsibility for directing and supervising the operations and affairs of the Department.

The department's goal is to reduce violent crime and strengthen public trust. In order to accomplish this goal the following strategies will be utilized:

- (1) Targeted Enforcement
- (2) Community Engagement
- (3) Building Strong Partnerships

Despite its multiple focuses, the first objective of the Department is protection of public safety through patrol activity and response to calls for service.

The Department's strategy is to reduce violent crime through targeted enforcement. This is accomplished by focusing on identifying and apprehending the most violent offenders in the City. In addition, efforts are directed at not only seizing illegal guns but also to identify and eliminate the origin of the weapons. The Department's mandate is to make quality arrests.

The second objective is to engage the community to assist in crime fighting efforts. Collectively the goal is to prevent crimes before they occur through programs such as Neighborhood Foot Patrols, Operation Crime Watch (organize Citizens on Patrol (COP) and neighborhood watch). In these programs, police officers provide support to citizens so that they are able to assume an active role in preventing crime and provide activities for children in a crime free environment. Additionally, the Department developed the "Get Out of the Game" program to assist persons in the illicit drug trade who are trying to get out and go straight.

The third objective is to build strong partnerships with fellow law enforcement agencies along with other City agencies to reduce the conditions which underlie crime. In this respect, police officers act as advocates for the neighborhoods to which they are assigned, working with other City agencies to address problems such as drug abuse, inadequate housing and trash removal. Collectively new strategies are formed to attack the catalysts of gang and gun violence.

Together, these three objectives are intended to create neighborhood environments that discourage crime.

622. Police Patrol

Service Description

The Patrol Division is comprised of nine Police Districts, their respective Neighborhood Services Units, and the Adult and Juvenile Booking Section. The City has received in excess of 1.2 million calls per year and responses to 730,000 for police services over the past decade, the highest of any Maryland jurisdiction, and expects to continue this high call volume again for Fiscal 2012. While 911 police services is the primary function, there are many other equally important facets, such as community oriented policing and support.

Budget Summary

The recommendation allows the department to continue its hiring plan, but projected hiring and attrition allows for vacancy savings of \$5.0 million across all police services, \$2.9 million in this service. The General Fund recommendation for Fiscal 2012 is \$1.8 million (1.0%) below Fiscal 2011 level of appropriation. Included in the recommendation is \$1.4 million for contract employees and \$1.0 million for Pocket Cops maintenance. The Fiscal 2012 recommendation includes a reallocation of the agency's \$17 million overtime budget across Police services to reflect current expenditures; this results in a \$3.9 million reduction in overtime funding in this service.

Overview

The Department of Public Works is organized into the Bureau of Solid Waste and the Bureau of Water and Wastewater. The Bureau of Solid Waste oversees Right-of-Way Cleaning, Vacant/Abandoned Property Cleaning and Boarding, Waste Removal and Recycling, Waste Reuse and Disposal, and Rat Control. The Bureau of Water and Wastewater consists of Surface Water Management, Water Utility Management and Wastewater Utility Management.

The Bureau of Solid Waste is responsible for providing waste removal and recycling services, including curbside collection of mixed refuse, recycling, and seasonal waste for 640,000 residents in approximately 210,000 households. The Bureau also provides vacant and abandoned property maintenance services, rat control services as well as public right of way cleaning of streets, alleys and lots. The Bureau of Solid Waste is also responsible for disposal of refuse in accordance with governmental regulations and mandates. This includes the management of a 125-acre active landfill at Quarantine Road and through agreements with the Wheelabrator Waste to Energy facility, recycling service providers and maintenance of six closed landfills. The long-term goal is to reduce volume and amount of waste deposited in landfills in order to extend the life of these assets and make the City self-reliant for the future. The Bureau also promotes and markets special initiatives for a cleaner and greener Baltimore.

The Bureau of Water and Wastewater is responsible for the operation of a water distribution system that supplies water to 1.8 million customers in the Baltimore Metropolitan Region. These responsibilities include the operation, maintenance and security of three watershed systems; three filtration plants; pumping stations and 4,500 miles of water distribution mains. The Bureau is proposing a 9.0% rate increase for Fiscal 2012 to keep on schedule with infrastructure improvements mandated under the consent decree with the State and federal governments. The collection and treatment of wastewater, the operation and maintenance of two wastewater treatment plants, approximately 3,100 miles of collection and conveyance lines, pumping stations and the City's system of storm drains are also the Bureau's responsibility.

The new Surface Water Management Division consolidates all stormwater related functions and includes the Watershed Liaison Office, Stormwater Management and Sediment and Erosion Control, Storm Drain Engineering, Storm Drain and Waterway Maintenance, Water Quality Monitoring and Inspections, and Environmental Engineering. The Division's mission is to restore the City's surface water to swimmable, fishable conditions in compliance with the Environmental Protection Agency and the Clean Water Act. The Department is pursuing the establishment of a fee based utility to fund capital projects and operations necessary to meet State and federal mandates.

662. Vacant/Abandoned Property Cleaning and Boarding

Service Description

This service provides cleaning and boarding services to vacant and unoccupied properties that are cited by the City's housing inspectors. Liens are placed against the property owner for work performed by City crews. Additionally, the Rat Control activity has been merged into this service in Fiscal 2012 to better align the functions related to property maintenance and cleaning. Rat abatement will not only be performed by Pest Control Workers, but Cleaning and Boarding crews are being trained to carry out this function as well.

Budget Summary

The General Fund recommendation for Fiscal 2012 is approximately \$1.1 million (43.6%) below the Fiscal 2011 level of appropriation. The primary reason for the decrease is due to offsetting the General Fund appropriation with \$1.5 million in lien revenue in Fiscal 2012. The Federal Fund budget request is \$1.9 million from the Community Development Block Grant program, an increase of \$415,279 or 28.0% from the Fiscal 2011 level of appropriation. The budget recommendation for the General Fund includes eliminating funding for one vacant Pest Control Worker position. It is expected that approximately 42,500 cleanings and boardings will be handled in FY 2012 and over 11,000 proactive rat baitings will be administered.

Service Description

This service provides for the operation of a water distribution system that supplies water to 1.6 million customers in the Baltimore Metropolitan region. This includes the maintenance of three watershed systems, three filtration plants, numerous pumping stations, and over 3,400 miles of water distribution mains. Baltimore's treatment and pumping facilities have a proven record of supplying safe and clean drinking water in compliance with all federal and State regulations. Additionally, this service maintains the city's 19,100 fire hydrants.

672. Water and Wastewater Consumer Services

Service Description

This service provides for timely and accurate quarterly meter reading and billing of 411,000 water accounts. This includes the installation and maintenance of water meters, delinquent turn offs, and utility billing customer service. The customer service section of this Division provides customer support for customer inquiries and escalated complaints and makes necessary adjustments to bills for the consumer through a vetted mediation process. This service also includes the management of the senior and low income assistance programs.

Budget Summary

The Water Utility Fund budget recommendation is \$1.6 million (10.0%) above the Fiscal 2011 level of appropriation. These increases are primarily due to salary and other personnel costs, particularly in pension and health benefits. All current service levels will be maintained in Fiscal Year 2012. This service will improve efficiency in Fiscal 2012 by reducing the number of estimated water meter readings from 10% in Fiscal 2011 to 9% in Fiscal 2012.

673. Wastewater Management

Service Description

This service provides for wastewater collection and treatment of up to 253 million gallons/day of wastewater from 1.4 million people in the metropolitan region. This includes operation and maintenance of the two largest wastewater treatment facilities in Maryland, twelve wastewater pumping stations and 1,400 miles of sewer main.

Budget Summary

The Wastewater Utility Fund budget recommendation for Fiscal 2012 is \$106.6 million, an increase of \$1.4 million or 1.4% above the Fiscal 2011 level of appropriation. All current service levels will be maintained in Fiscal 2012. These increases are primarily due to salary and other personnel costs, particularly in pension and health benefits. This service will treat 212 million gallons of wastewater in the budget year and will reduce the cost of treatment per million gallons from \$1,162 in Fiscal 2011 to \$1,154 in Fiscal 2012.

674. Surface Water Management

Service Description

This service provides for the protection, enhancement, and restoration of watersheds within the City of Baltimore and the Chesapeake Bay tributaries through water quality management and rigorous compliance measures mandated by the Environmental Protection Agency and the Clean Water Act. This service maintains 1,146 miles of storm drain pipe, 52,438 inlets, 27,561 manholes, 1,709 outfalls, four storm water pumping stations, and five debris collectors. This service encompasses activities that contribute to advancing the Baltimore City Sustainability Plan and the City-County Watershed Agreement. The City is exploring alternative financing options to meet new, tougher Federal and State stormwater management requirements.

675. Engineering and Construction Management Services – Water and Wastewater

Service Description

This service provides for the design, construction and management of water, wastewater, stormwater and environmental restoration capital improvement projects. The City is currently subject to a federal consent decree that has been in effect since 2002, which places stringent requirements on the City to upgrade its sewerage system with the intent of eliminating sewer overflows and other illicit discharges. Additionally, the City must also complete upgrades to Enhanced Nutrient Removal (ENR) treatment at both the Back River and Patapsco wastewater treatment plants at an estimated cost of \$812 million to meet more stringent Chesapeake Bay environmental clean-up requirements. Under the Consent Decree, the City will also provide capital investment totaling approximately \$200 million to treat the City's five reservoirs in accordance with the Safe Drinking Water Act to comply with the Long Term 2 Enhanced Surface Water Treatment Rule.

Budget Summary

676. Administration – Public Works

Service Description

This service provides leadership and support to the Department of Public Works in the areas of Administrative Direction, Human Resources, Fiscal Management, Technical Support, Contract Administration, Legislative Affairs, Media and Communications, and Safety and Training. These functions are supported financially by the Bureau of Water and Wastewater, the Bureau of Solid Waste and the Departments of General Services and Transportation.

Budget Summary

The General Fund budget recommendation for Fiscal 2012 is \$1.4 million, an increase of \$531,853 (62.9%) above the Fiscal 2011 level of appropriation. This increase is due to the shifting of Worker's Compensation expense budgeted in Motor Vehicle Revenue fund appropriation to the General Fund. The Motor Vehicle fund recommendation is \$1.1 million and funds the Department's share of the 800 MHz system. Overall, the funding recommendation for this service is \$403,370 (14.3%) below the Fiscal 2011 level of appropriation. Funding is eliminated for eight vacant General Fund positions.

Budget Changes

The following table details the budget changes for the General and Motor Vehicle Funds. Please note that the change in employee benefits and compensation line includes a 2% COLA for most unions plus savings from new health benefit management measures:

Park Maintenance personnel also remove trash from all parks, mulch trees, support special events, and remove leaves/snow.

Budget Summary

The General Fund recommendation for Fiscal 2012 is \$8,085,333, which is an increase of \$898,662 or 12.5% above the Fiscal 2011 level of appropriation. This recommended funding level incorporates utilities expenses that were previously budgeted elsewhere within the agency, as well as maintenance expenses that were previously budgeted within the Department of General Services. Funding will allow for maintenance and trash removal from parks every 1-2 weeks, and from pocket parks every 3-4 weeks. Eleven miles of bike trails will receive routine maintenance work five days a week, and bike trail inspections will be reduced to three days a week. Additionally, non-BCRP leagues will use non-maintained fields for play.

648. Community Recreation Centers

Service Description

This service operates 55 recreation centers for the enjoyment and leisure activities for the residents of Baltimore and surrounding counties. Each center offers a wide array of programs for children, adults and seniors. Community Recreation Centers provide 294,244 program experiences for youth in after-school and out-of-school programs, with 95% of youth participating in programs for at least three weeks a year.

Budget Summary

The Fiscal 2012 General Fund recommendation is a decrease of \$518,747 or 4.9% from the Fiscal 2011 level of appropriation and is based upon the recommendations of the City's Recreation Center Task Force. Recreation center operations will continue as currently provided until January 1, 2012. After this time, 25 recreation centers will transition to "model" recreation centers and community centers, with appropriate staffing and resources to meet the task force standards and recommendations. Capital funding will be used to upgrade and expand existing recreation centers into community centers. The remaining centers will transition to a new system of operation through partnerships and collaborations with community organizations, private enterprises, Baltimore City Public Schools, and other City agencies. The City will seek partners to continue operations at all centers, and work to convert as many remaining centers as possible to after-school centers. As many as 10 centers could close, depending on funding, costs, and the number of partnerships. Funding for maintenance expenses budgeted in Fiscal 2011 within the Department of General Services has been moved into this service. Additionally, agency-wide utilities that were previously budgeted within Community Recreation Centers are now budgeted within their respective services.

This service also provides 640 community gardening plots and delivers mulch and compost to community gardeners and greening projects around the City.

Budget Summary

The Fiscal 2012 Motor Vehicle Funds have been reduced from \$314,001 to \$0; however, the Department of Transportation will provide Horticulture with a \$320,000 payment for median strip plantings, and Horticulture will maintain the current level of services. Horticulture will maintain public garden facilities (Cylburn Arboretum and Rawlings Conservatory), City Hall and War Memorial Plaza and four gateway medians – President Street, MLK Boulevard, Edmondson Avenue, and Baltimore Washington Parkway. Horticulture no longer maintains flowerbeds in various City parks. The 50,000 square feet of shrubbery in City parks will only be pruned by request, resources permitting.

654. Urban Forestry

Service Description

The Forestry Division provides general maintenance of city street and park trees, including inspecting, planting, removing, pruning, watering and mulching. This service manages trees on public property and rights of way, and on private property through the TreeBaltimore initiative.

Budget Summary

Funding for this service includes continued use of CityWorks, software that is used to manage the tree maintenance schedule. The Fiscal 2012 Motor Vehicle Fund recommendation is approximately \$2.7 million, a reduction of \$297,634 or 10.0% below the Fiscal 2011 level of appropriation. The General Fund recommendation is \$167,060, a reduction of \$23,035 or 12.1% below the Fiscal 2011 level of appropriation. The impact of this reduction would be the elimination of half of the daily contractor crews; the remaining contractor crews will work 5 out of 12 months. Stump grinding services would be eliminated. Pruning services would be discontinued except for hazard elimination and through a geographically-based pilot preventative pruning program. Response time for urgent storm cleaning and tree removal would increase in duration from 2 to 4 days, and daily crews would respond to urgent/priority requests only. Because this service is funded at a reduced level from Fiscal 2011, no new trees will be planted. The Department will focus on encouraging private property tree planting.

The Baltimore City Department of Social Services is a public agency funded by the City, State and federal governments, and operates under the administrative direction of the State Department of Human Resources. The department is responsible for developing and maintaining automated tracking capabilities in areas of legal services, child protective services and foster care; implementing automated systems to distribute welfare payments and food stamps benefits; coordinating the Project Independence Program which helps TCA (Temporary Cash Assistance) recipients become self-sufficient; and determining eligibility for Medical Assistance. The major funding source for these functions is State government.

The City's contribution to this department is used to provide a salary supplement for the Director of Social Services, as well as emergency services for shelter.

The agency operates more than 130 red light and speed enforcement cameras, and conducts safety education and training programs such as Safety City, Safe Routes to Schools and related bicycle programs. The agency deploys more than 300 crossing guards at elementary and middle schools. The agency also operates the Charm City Circulator and water taxi "Harbor Connector" commuter service.

The Parking Authority is responsible for: on-street and off-street parking including the management of the metered parking system and maintenance of 6,000 single-space parking meters; administration of special parking programs such as residential permit parking and ridesharing; enforcement of parking regulations; and management and development of off-street parking facilities.

684. Traffic Management

Service Description

This service provides the management of pedestrians, bicyclists and motorists throughout the City. This service also provides the design, fabrication, installation, and maintenance of more than 250,000 traffic control signs and devices throughout the City, the installation of safety fencing and jersey barriers, and the painting of several hundred crosswalks each year. This service previously included traffic safety functions; those have been transferred to a new, stand-alone Traffic Safety service (#697).

Budget Summary

The General and Motor Vehicle Funds recommendation for Fiscal 2012 is \$8,305,221 or 48.6% below Fiscal 2011. In Fiscal 2012, 17 Special Traffic Enforcement Officer (STEO) positions, three STEO supervisor positions and one Traffic Superintendent position are created. These additional STEOs will be used to keep traffic moving consistently during major planned special events, roadway and bridge closures for reconstruction and emergency situations. The percent of days when travel times are optimal along the City's gateways will remain at 80%.

689. Vehicle Impounding and Disposal

Service Description

This service provided impounding and disposal of more than 35,000 vehicles in Fiscal 2010. This service includes the towing and storage of vehicles illegally parked, abandoned, owned by scofflaws, involved in crashes or held in the Police Department or State's Attorney's Office for investigations and prosecutions.

Budget Summary

The General and Motor Vehicle Funds recommendation for Fiscal 2012 is \$2,625,030 (47.1%) above the Fiscal 2011 level of appropriation. This service was funded at a reduced level in Fiscal 2011 in expectation that it would be outsourced and a vendor would be in place by mid-year to take over management of all vehicle impounding and auction. Due to the postponement of outsourcing, this service will be fully funded in Fiscal 2012.

487. Operation of War Memorial Building

Service Description

This service supports the operation of the War Memorial Building, which was established in 1925 to honor Marylanders who lost their lives in World War I and to provide meeting space for veteran's organizations. It is operated by the War Memorial Commission. The Commission is established in the Annotated Code of Maryland Articles, and defines the Commission as a jointly held title between Baltimore City and the State of Maryland. The Fiscal 2012 recommendation allows the agency to provide current level of service. The agency is seeking ways to make the facility more self-supporting through rental income.

Budget Summary

The General Fund recommendation is \$33,206 (13.5%) above the Fiscal 2011 level of appropriation. The Special Fund recommendation is \$50,000, the same as the Fiscal 2011 level of appropriation.
